Enduring Support. Lasting Progress.

Activities and 2025
Progress Report

Foreword

Dear Friends of the Foundation,
dear Members,

I am very pleased to be able to present our progress this year on the following pages. In the past year, 2025, numerous projects, visions, and initiatives were once again able to receive financial support. I am particularly proud that this support continues to grow steadily from year to year.

This is also thanks to your assistance. Whether through financial contributions or by sharing and promoting the Foundation. In this regard, I would like to point out that, in addition to its newly established online presence, the Foundation is now also represented on LinkedIn. This enables us to actively promote the Foundation and raise awareness among a broader audience and target group. Please feel free to share and engage.

I wish you a successful and healthy start to the new year 2026, which will certainly be no less full of action and commitment.

Best regards

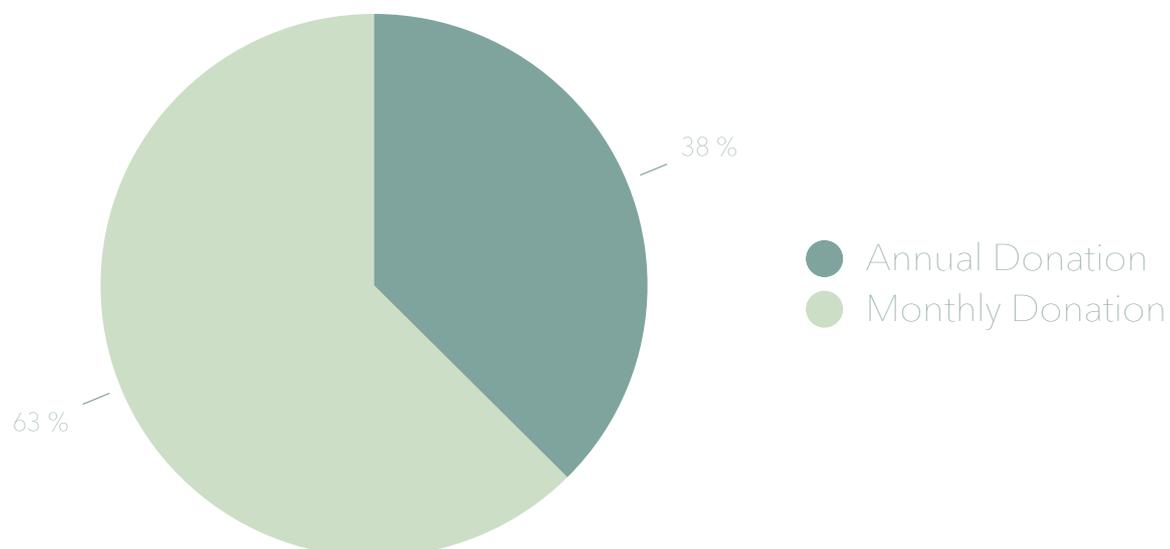

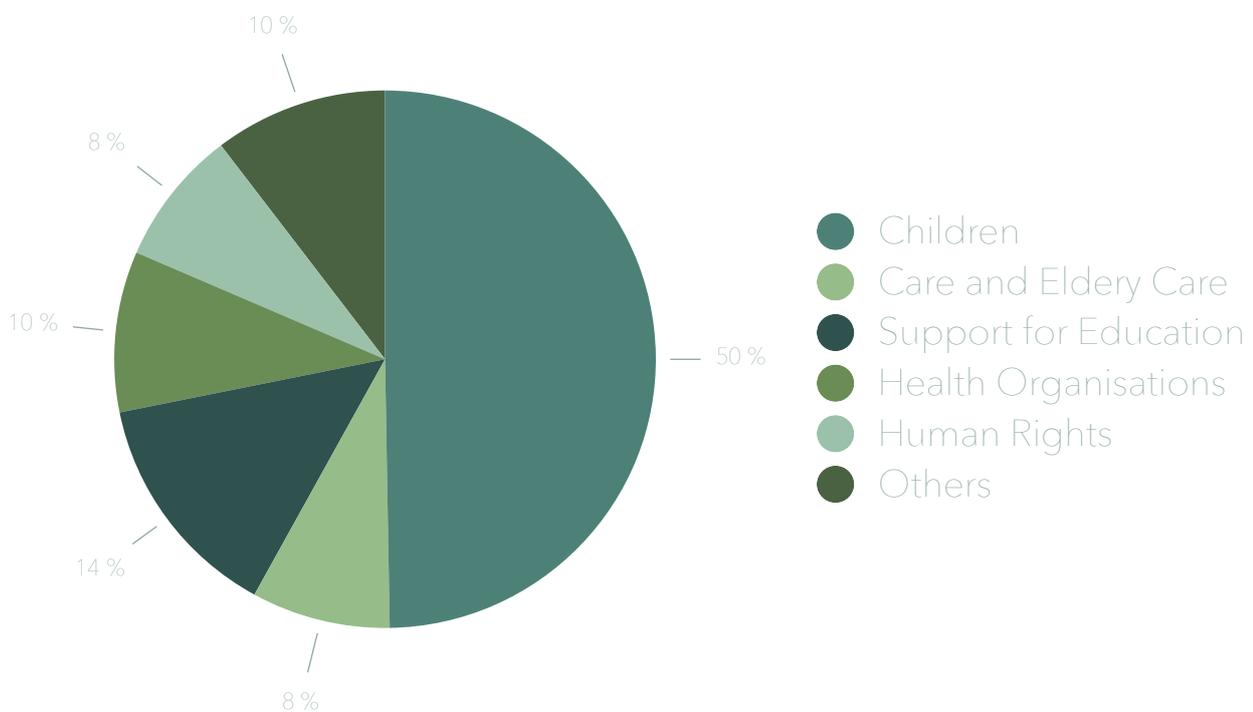

LINUS V. PYKA
Founder

Division

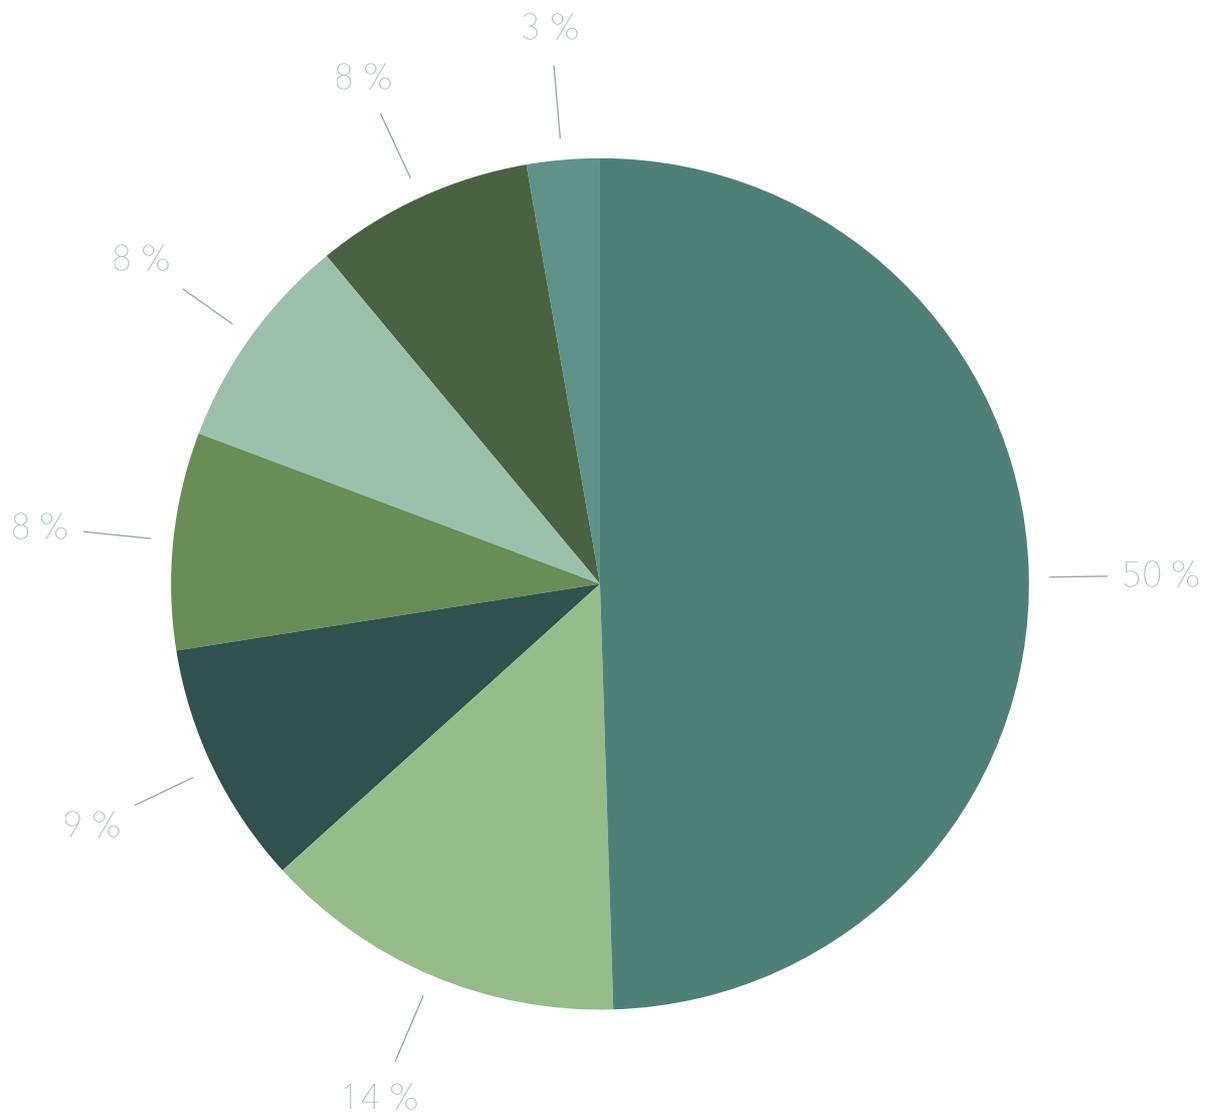

Our Donations are allocated as follows. We support and provide assistance for:

Division

Division after Organisations:

- World Vision
- BLM Foundation
- Terre des Femmes
- School support associations
- TOR Project
- AMREF Health
- Diakonie

Enduring Support. Lasting Progress.

Explanations

To the great delight of our beneficiaries, the majority of our donations are made on a monthly basis. This provides the projects and aid organizations with predictable and continuous income, which generally allows for more efficient support. In this way, we cover all urgent areas of need.

On an annual basis, we primarily support education within Germany, for example as members of two school support associations.

Enduring Support. Lasting Progress.

New Projects

This year, we have included several new organizations and causes, which we continue to support on an ongoing basis. On the following pages, we would like to give you a brief insight into the work and vision of each initiative.

Enduring Support. Lasting Progress.

Amref Health

The origin of Amref Health Africa lies with the Amref Flying Doctors. Founded in 1957, the “flying doctors” brought medical and especially surgical care to remote areas of East Africa, initially using only a single Cessna 206 single-engine plane. This allowed medical personnel to reach regions of the African continent that otherwise had no access to adequate healthcare.

Today, the Amref Flying Doctors are the leading provider of air ambulance and patient transport services, both by air and on the ground, across sub-Saharan Africa.

For tourists and business travelers visiting Africa, the Amref Flying Doctors offer a range of services and insurance options. Of particular note is the Maisha Evacuation Insurance, which serves as a valuable complement to travel or international health insurance for travelers to Africa. In an emergency, it ensures medical evacuation by plane.

In addition, our monthly donation supports women and young people through health programs aimed at improving water and sanitation, combating neglected tropical diseases, strengthening local health systems. For example through education and training and providing healthcare in conflict-affected areas.

Enduring Support. Lasting Progress.

BLM Foundation

Black Lives Matter (BLM) is an international, decentralized, and well-known movement that stands against racism, violence, and police brutality toward Black people. BLM works both within and outside the system to heal the past, reshape the present, and invest in the future of Black lives. This through political change, community investment, and a commitment to art and culture.

It emerged in the United States in 2013 following the acquittal of the perpetrator in the Trayvon Martin case. BLM advocates for justice, equality, and the reform of police and judicial systems. We support this work with a monthly donation.

The Black Lives Matter Foundation is an abolitionist-oriented organization that fights institutional injustice and supports Black people worldwide. It funds organizations and individuals engaged in political and abolitionist work and collaborates with those providing direct services to meet the needs of Black communities.

Over the past six years, the movement has drawn global attention to structural discrimination and social inequality. At the same time, it has sparked societal and political debates on racism and human rights.

Diakonie

The so-called Diakonie, in the form of the Diakonisches Werk e.V., operating several care and healthcare facilities in Germany, bears an incredible burden and social responsibility.

We are grateful and appreciative of everyone who dedicates themselves to the work and the people in such environments. The work carried out in care services is hard and vitally important. Almost the very foundation of daily life. Without these essential institutions and their staff, all of our lives would look very different.

Whether in elderly care, residential care, or day care, all areas face the same challenge: running these facilities economically is nearly impossible today. Many factors drive this relentless process. A large amount of staff is required at all conceivable working hours, yet the facility's revenues are insufficient to cover the necessary personnel costs. It is a vicious circle.

Mr. Pyka himself regularly witnesses this dilemma through his professional experiences and has, in doing so, built even more contacts within the sector. After gaining these insights, supporting this work is simply a matter of course for us.

We are aware that monetary contributions alone cannot solve the problem. Nevertheless, they pave the way: For more opportunities, larger budgets, and, hopefully, a new future for care services.

Enduring Support. Lasting Progress.

Friends of Salem

The support association Friends of Salem of the Baden-Wuerttemberg based School Schloss Salem funds projects that cannot be covered by the regular school budget. These projects provide significant educational benefits for both current and future students. Ranging from the Salem services, the arts, academic instruction, and the sciences, to sports activities.

The *Association of the Schule Schloss Salem e.V.* was established in 1925, five years after Kurt Hahn and Prince Max of Baden founded Schule Schloss Salem. Then as now, the Friends of Salem association pursues Salem's educational mission as originally formulated by Kurt Hahn.

We support this promotion of education and school life through an ongoing membership in the association. As with other educational institutions we support, this ensures that purchases for students beyond or above the regular budget can be made. Helping to make school enjoyable, fostering a sense of community, and creating experiences that bring joy.

We see, here as with the support association of the Vocational School Center for Business and Data Processing in Würzburg, that sustainable purchases are possible through the collective efforts of all members. In this way, we also hope that students come to appreciate the privilege of education in our country, while growing up with social awareness and entering life with these values.

Terre des Femmes

Since its founding in 1981, Terre des Femmes has been committed to a world free of violence for women, where they can live autonomously, equally, and freely. Its vision is a woman who has control over her own sexuality, who can decide for herself whom to marry, a woman who cannot be treated as a commodity for others' pleasure, and a woman with a safe home.

The association supports women's rights organizations worldwide. Whether in the fight against female genital mutilation, human trafficking and forced prostitution, forced marriage, and honor-based violence, or in initiatives to improve protection against violence for girls and women. Terre des Femmes' core areas of work remain the same both internationally and in Germany.

Currently, TDF has seven partner organizations in Latin America, Africa, and Asia. It also supports endangered women's rights activists worldwide and conducts development education in Germany. Its international efforts are guided by the motto: *Human rights are women's rights - worldwide!* The right to freedom from all forms of violence and discrimination lies at the heart of TDF's international collaboration.

Terre des Femmes is a respected actor in the German media landscape and in politics, with expertise that is widely sought. Within civil society, it is valued as a reliable and competent partner. We support the association and its mission through an annual sponsorship.

The Tor Project

The Tor Project believes that everyone should be able to explore the internet with privacy. Its mission is to promote human rights and freedoms by developing and deploying free and open-source anonymity and privacy technologies, supporting their unrestricted availability and use, and fostering both scientific and general understanding of them.

The idea originated in the mid-1990s, when researchers realized how easily the emerging internet could be monitored. Their solution was a method in which internet traffic is routed through multiple servers and encrypted multiple times. This basic principle remains at the core of the Tor network to this day.

The Tor Project needs support because digital surveillance, censorship, and persecution are rapidly increasing worldwide. Millions of people, including journalists, whistleblowers, at-risk communities, and everyday internet users rely on secure communication channels. At the same time, Tor is operated by volunteers and is entirely transparent and nonprofit. To continue developing the software, circumvent censorship measures, and ensure long-term security, the project requires financial support.

Tor has enabled access to blocked information and protected activists from surveillance. The 2013 Snowden revelations also confirmed Tor as one of the few systems able to withstand state-level mass surveillance. Today, Tor is the world's most powerful tool for online privacy, security, and freedom of information. The project sees itself not just as software, but as a global human rights initiative.

Outlook for 2026

In the newly begun year of 2026, we will continue to expand our engagement by supporting new organizations and associations. In total, all donations we contributed in 2025 amounted to nearly 1,000,00 EUR which equals to over 1.160,00 USD. A great start, yet one on which we certainly will not rest. There are still far too many people, groups, and minorities in the world who are in need.

We are already in contact with various representatives of individual movements to establish new connections and memberships. For example, we plan to become active in the field of support for people with disabilities in the near future.

Additionally, work on establishing a public presence for this still-young foundation will be completed. Priority is given to the website, which is expected to go live during the first quarter.

Social media is also an important factor today, offering significant visibility. Accordingly, a public profile has already been created on LinkedIn to facilitate professional networking. Further platforms, such as Instagram, are currently under consideration.

Finally, a donation account will be set up, and the foundation aims to gain its first members in 2026.

Directory

Finally, you will find all organizations and projects that we directly support and that have been used as the basis for this report.

- AMREF Flying Doctors _____ KENYA
- Black Lives Matter Foundation _____ USA
- Devine Hand for the Child Foundation _____ UGANDA
- Diakonisches Werk Schweinfurt e. V. _____ GERMANY
- Förderverein des BSZ f. Wirtschaft und Datenverarbeitung _____ GERMANY
- Förderverein der Schule Schloss Salem, Salem _____ GERMANY
- Terre des Femmes e. V. _____ GERMANY
- The Tor Project _____ USA
- World Vision, World Vision Kenya _____ KENYA

Although we already support a significant number of causes, we are always striving to do more. In 2026, we plan to engage with new organizations and further expand our support portfolio.

We would be delighted to have your support in this effort!
